## ON LOCATION: HANCOCK PARK

For this catalog, bringing our furniture and accents to life meant taking them offsite and inside some of Southern California's most breathtaking estates. Part of our adventure was spent in the gorgeous and historic neighborhood of Hancock Park, where architecturally rich residences abound. The LA enclave's old world glamour is captured by outfitting this interior with mirrored pieces, bold motifs and seats modeled after European antiques.

## REFLECT BACK

Because many of our best memories come from our best meals, attention must be paid to where and how we dine. When gathered around the Laurent table, everyone will relish the old world air of its trestle base, adore the distressed black finish and admire the uniqueness of its zinc-plated surface. As conversation keeps going and drinks keep flowing, the dashing Joss side chairs lend constant support and style, so you and your guests can continue the merriment.

## THINK SIMPLE

Putting together an exceptional dining space is like planning the perfect party - the key to success is to make it feel inviting and relaxed. Displaying streamlined, straightforward design, the Dean table serves as a foundation for stellar celebrations. Exposed dovetail joinery translates into transparent function and beauty on the solid oak stunner, which is accompanied by our equally sleek Oliver side chairs. Airy and contemporary in appeal, they boast dapper grey fabric and stainless steel frames.

## RISE ABOVE

Clean lines are far from confining, especially when it comes to the array of ways our Renata stools can be used. Lofty steel frames form the Parsons-style silhouettes, which are fortified with durable upholstery and chrome foot rests. Not only do these statuesque seats come in shades of grey, brown, black and white, they are also available in bar and counter heights.

## BRANCH OUT

An affinity for entertaining will grow naturally when the Oleander dining collection takes root in your space. Crowned by thick slabs of solid acacia, the table and bench exhibit one-of-a-kind texture and character through their impressive live edge designs. A light walnut finish handsomely highlights the wood's organic knots, burrs and grain patterns, as an antique nickel coat enhances the structural splendor of iron bases.

## SQUARE OFF

Few color combos can compete against a duo as dynamic as grey and yellow, so we gave this pair extra crowd-pleasing flair in our Lorelai collection. A shelter arm sofa elevates the golden couple, with a button tufted back and bright pillows working together to make these winning hues look better than ever. Their chemistry heats up on the mid-century accent chair and reaches its ultra-chic peak on a hand-woven wool rug that's dripping in diamond shapes.
